

Shipping products globally Just became as easy as shipping products next door

As your company grows internationally, it becomes more and more important to use a shipping and logistics partner that provides you with a fast, reliable, yet economical way to deliver your products outside of the U.S. However there are many obstacles to international expansion that can slow you down.

- Total landed cost calculations
- Unexpected fees billed by customs officials or local shipping companies
- Duties and taxes
- Poor communication and responsiveness from shipping providers

With Access Technology Solutions, the entire international shipping process is automated and paperless. We handle all of the complexities, red-tape and difficulties related with shipping overseas, so you don't have to.

Online Package Tracking: Your customers can track any shipment at any time from warehouse pickup to customs clearance to local delivery status.

Electronic Customs Clearance: Access' systems speed up the customs clearance process by automatically and immediately sending the customs clearance data electronically to brokers throughout the world. Access' proprietary customs clearance solutions achieve significantly faster clearance time with greater accuracy and reduced cost..

HS Code Management: If you sell numerous items in different product categories, Access manages the assignment of the appropriate HS codes, which is used by more than 200 countries worldwide for customs clearance and duty/tax collection purposes. Proper management of international HS codes assures the lowest possible duty rates.

Extraordinary Savings and Value: Access delivers the most cost effective solution with enhanced delivery times. Savings of 40% to 60% over other carriers with typical transit time to Tokyo: 4 days, Munich: 4 days, London: 3 days, Beijing: 4 days.

Access also offers significant savings on shipping outside of 48 contiguous states and territories, such as Alaska, Hawaii, Puerto Rico, Bahamas, U.S. Virgin Islands, just to name a few.
